

## APPLICATION AND AGREEMENT FOR BOAT DOCK LICENSE ON NACIMIENTO RESERVOIR

(Please print clearly or fill-in electronically)

In 1972, the Monterey County Water Resources Agency (MCWRA) established a boat dock licensing program for Nacimiento Reservoir. The program was developed to support the recreational use of boat docks on the reservoir and to monitor any hazardous conditions which may arise. It is the MCWRA's responsibility to ensure that all docks on the reservoir comply with current dock licensing conditions. The licensing program monitors docks which may present a hazard to reservoir navigation or to the outlet structures of the reservoir's dam. Each dock license must be renewed on or before April 1 of each licensing year during which the dock is left, reinstalled, or floated on the waters of Nacimiento Reservoir. All licensed docks are inspected annually by the MCWRA.
